But first.... Let us get to know you!

Please answer the Zoom survey

Co-funded by the European Union

Introducing 4EU+ Alliance

4 Flagship programmes

Flagship 1

Urban Health and Demographic Change

Flagship 2

Europeanness: multilingualism, pluralities, citizenship

Flagship 3

Digitisation - Modelling - Transformation

Flagship 4

Environmental transitions

Strategy 2025-2035

The 4EU+ Alliance's Strategy 2025-2035 charts the course towards building One Comprehensive Research-Intensive European University, outlining ambitions and actions across education, research, innovation, and outreach.

Read more

Website: https://4euplus.eu/4EU-1001.html

- A framework for expanding and deepening collaboration within and across missions
- Accompanied by an **Action Plan**: a tool to **monitor** and **prioritize** both new initiatives and the resources already invested in current initiatives

What is NEW in the 2025 Call?

Emphasis on research

Opening to early career researchers

WHAT IS SEED ABOUT?

Funding the implementation of novel ideas, starting points for possible long-term collaboration

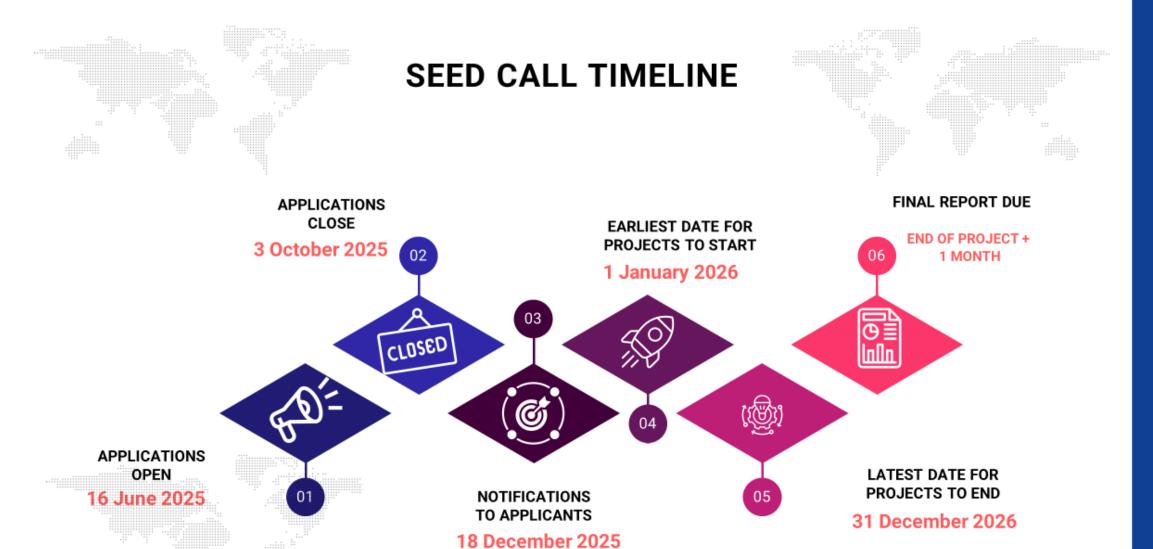

Fostering 4EU+
cooperation on initiatives
with the aim of
developing One
Comprehensive ResearchIntensive European
University

Research (primary focus) and education

Specific for SEED4EU+: Success rate around 35% and easy project application

APPLICATION REQUIREMENTS:

What to remember?

- ✓ At least THREE 4EU+ partner universities
 (ex. University of Warsaw PI with Milan and Heidelberg)
- ✓ PhD title
- ✓ Employment contract (valid until the end of the project period) for the Applicants (PI) and Local Project Coordinators
- ✓ Duration of the project: max. 12 months (01/01/2026 - 31/12/2026)
- ✓ **Budget** allocated among **all** the partners
- ✓ Letter of intent: Each local coordinator provides a letter of intent signed by the head of the faculty/department/institution

Questions

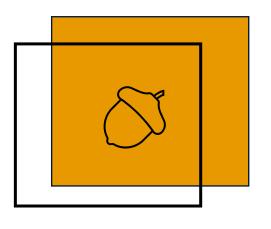

- Can someone be both the PI and the local coordinator for a project? Or do these need to be separate people?
- I am employed at the partner university UW (part-time researcher position assistant professor) - however my full-time employment is at another Polish university. Can I be a PI of the proposal?
- Can temporary researchers submit a project application?
- According to your experience, what is the "reasonable" size of each team?
- Is it possible to be part of the team in more than one project application?

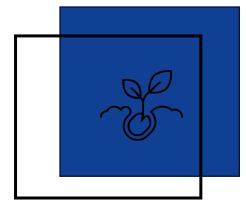

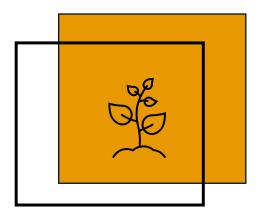

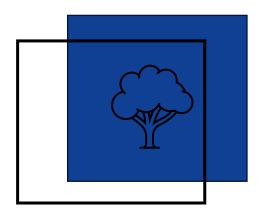

WHAT IS EVALUATED?

Max score: 100

Objectives & Methodology (0-25)

✓ Relevance for 4EU+ Strategy

Novelty (0-25)

- **Ambitious** and innovative
- ✓ Add steps to previously funded project

Implementation (0-25)

- ✓ Role of each partner
- Expertise brought by the consortium

Expected results & Sustainability (0-25)

- ✓ Project value for the Alliance
- Scaling up the collaboration and results beyond the project's scope

Questions

- Is it a good idea to mention that the project will be carried out both with the SEED4EU+ partners in the project as well as other European institutions (that won't be funded because not part of the Alliance but still...)
- How detailed should the project timeline be? Should it be broken down month by month, or is a more general overview sufficient?
 How should we interpret the section "Synergies with Previous 4EU Initiatives"? If we have previously co-organised an academic seminar with one of the 4EU+ universities participating in the SEED4EU+ project but this was not part of a 4EU+ initiative (project) should we still answer "yes" to this question?
- How long must the written project be?
- The programme focuses exclusively on teaching involving students or purely scientific research projects are also eligible for funding?
- What do you mean with Sustainability and Relevance in the evaluation criteria?

BUDGET

Useful recommendations:

The maximum funding available **per project is € 50.000.**To build the budget for your project, it is recommended to define your activities precisely, as it is a **constructed** budget, meaning **each university involved in the project contributes its own funding to the project.**

We highly recommend contacting the **4EU+ local office** at your university for any budget questions or concerns during the project building process, **both as a Coordinator and a partner (at least two weeks before the submission, preferably earlier).**

The expected **EARLIEST date for projects to start is 1st January 2026**, and the funding must be used **within that year**.

BUDGET

Activity/Cost	
Travel and subsistence expenses: airfare (economy class), train, car rental, lodging, meals, visas, or similar	eligible
Costs of hosting seminars/conferences or workshops (e.g., venue rental, catering, lodging)	eligible
Consumables and supplies as proportionate with activities	eligible
Publications (related to collaborative research) costs, including Open Access fees	eligible
Hiring student assistants	eligible/not eligible*
Internship stipends	eligible/not eligible*
Salaries for support teams (scientific, administrative)	eligible/not eligible*
Internal invoicing for access to research infrastructures	eligible/not eligible*
Subcontracting	eligible/not eligible*
Scientific equipment	eligible/not eligible*
Stipend payments to non 4EU+ member institutions individuals	not eligible
Fellowships, scholarships for theses	not eligible
Website development	not eligible
Entertainment costs	not eligible
Office supply and furniture	not eligible
Indirect costs	not eligible

The * sign in the eligibility costs means that Applicants should contact their 4EU+ local office to check if they are eligible for these types of costs.

The * sign in the eligibility costs means that applicants should <u>contact their 4EU+ local</u> office to check if they are eligible or not.

Questions

- Does all the money have to be spent in 2026?
- Are universities required to contribute internal funding in addition to the allocated amount?
- Could you please clarify how the financial management works? Does the full amount go first to the coordinating university, which then distributes funds to the partners according to the agreed budget? Or is each partner directly allocated their share of the funding by the 4EU+?
- Could you please clarify whether coordination costs (for PIs and coordinators) and the work of doctoral students can also be included in the budget?

Are you looking for project partners?

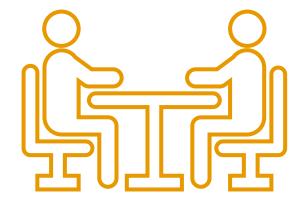

Use these tools:

Fill in the **form** and let your 4EU+ colleagues know what your work is about.

Have a look at the SEED collaboration opportunities already shared through the form.

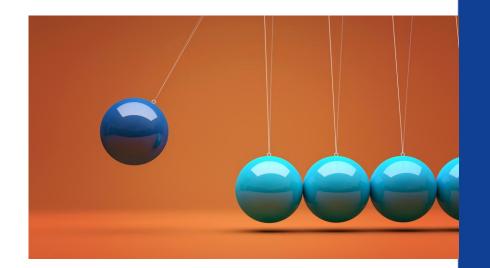

Are you looking for inspiration? Check the past projects

Please get in touch with your 4EU+ Local Office for any questions
